

HIGH SPIN
WASHER-EXTRACTOR
TW SERIES

Innovation

Our friendship started with machine manufacturing and sales, will continue to increase as long as you operate your business. Since 1977, numerous domestic and international laundry facilities were founded by TEMEL MAKİNE.

Improved strong and robust machine structure

The newly developed reliable suspension system

The new generation touch screen controller

Large loading door for easy load and unload

It has been developed for Professional laundries textile washing process

Eco-friendly products promote green living that help to conserve energy and also prevent air, water pollution. They prove to be boon for the environment and also prevent human health from deterioration. TEMEL MAKİNE is proud to present these eco-friendly products to all kinds of facilities that give importance to the future of the world's resources.

✓	With improved drum design it provides savings in water, energy and time
✓	Stainless steel outer body
✓	Stainless steel inner and outer drum
✓	Perfect operation with improved constructive structure, springs and damper system
✓	High extracting factor 350 G
✓	New generation touch screen controller
✓	Manual operation possibility in all programs during operation
✓	Signal system that is compatible with central liquid detergent dosing system
✓	Quite and perfect operation with electronic anti-balance control
✓	New design chemical chamber
✓	Large loading door
